2099 ALPHA 1

Marvel's Gonna Party Like It's 2099

The future isn't as far away as it used to be... but 2099 is still far enough in the future that every Marvel fan will want to see what's coming up in November's ***Marvel 2099*** event! After all, 2019 is midway between the time that Marvel began and the world of 2099, so what better time to bring back the future-Marvel line?

The fun begins in ***Amazing Spider-Man #33*** (by *Nick Spencer & Pat Gleason*). Miguel O'Hara's mysterious return to the present threatens his life and his entire future. But why?

That leads into ***2099 Alpha #1*** (by *Nick Spencer & Viktor Bogdanovic*). The future is in peril. Events in ***Amazing Spider-Man*** have been leading to this for months. Something is happening in 2099 that spans Nueva York and beyond and will shake up the official Marvel Future forever.

In ***Amazing Spider-Man #34*** (by *Nick Spencer & Pat Gleason*), Spider-Man 2099's present is our crumbling future. But what chance do we have, relying only on Peter Parker, Miguel O'Hara, and... Victor Von Doom?! But what are Spidey and Doctor Doom doing on the same side?

So who's the last person you expected to see in 2099? Well, you're going to see him there in ***Conan 2099 #1*** (by *Gerry Duggan & Roge Antonio*). When Conan entered the Marvel Universe with the Savage Avengers, he stayed to conquer and claim his kingship in modern times. Now he is cursed by a mystic to live beyond his years, and when Conan's new kingdom is threatened, he swings his blade once more! But as the calamity in 2099 bears down on his secluded realm, will the future shock unseat the barbarian king?

The world of 2099 isn't a peaceful place—and that means that there's plenty to keep a Punisher busy in ***Punisher 2099 #1*** (by *Lonnie Nadler & Zac Thompson*). In fact, with the streets of Nueva York more crime-ridden than ever, it's up to Punisher 2099 to clean up the block—but who's behind the mask?

The future belongs to Doom in ***Fantastic Four 2099 #1*** (by *Karla Pacheco & Steven Cummings*). Heroes may be no more, but the legacy of Earth's greatest family lives on against impossible odds. As this new quartet of champions takes on the mantle, what does it mean to be called Fantastic Four in a future ruled by Doom?

And that's just the first month! The event continues into December with ***Spider-Man 2099 #1, Ghost Rider 2099 #1, Doom 2099 #1, Venom 2099 #1,*** and ***2099 Omega #1.*** And from there... well, there's always the future, isn't there?

A Blackstar Is Born

The bad news? *Grant Morrison's* ***The Green Lantern*** is coming to an end (at least for now) in October.

The good news? *Grant Morrison's* ***Green Lantern: Blackstars #1*** is launching in November, with art by *Xermanico!*

In this new series, once-familiar faces wielding Lantern power rings now wear a different uniform and enforce a new type of galactic law—including Hal Jordan. The Green Lantern Corps is dead—long live the Blackstars!

"Oa is the skeleton-paved haunt of vengeful demons," Morrison said. "And the Blackstars—a sinister cult of universal peace and harmony, involving surrender to the will of the insidious and/or possibly illuminated Controller Mu—are in the process of subjugating the universe to their creed."

Who are the Blackstars? That'll be revealed in November—but we know that "Jordan's one of the Blackstars' primary operatives," Morrison said. "He's central, although the Cosmic Vampire Countess Belzebeth vies with him for control of the narrative in Blackstars. Hal Jordan is the kind of man who will excel in any situation, so naturally he's an elite Blackstar in this altered continuity."

Green Lantern: Blackstars #1 is scheduled for November 6th release.
